

Free Community Education Session

Advances in the Medical Treatment of Prostate Cancer

Speaker

Medical Oncologist
Associate Professor
Ian Davis

Join respected Medical Oncologist, Associate Professor Ian Davis for a discussion about the latest advances in the medical treatment of prostate cancer. Find out how these breakthroughs will impact the 4,680¹ Victorian men diagnosed with prostate cancer each year. Following his presentation, participate in a Q&A session with Associate Professor Davis. Also find out about the value of a prostate cancer support group in your community.
